CFA® Program Overview

THE GOLD STANDARD

The CFA® charter is the pinnacle of financial professionalism, and the path to achieving it is a challenging process. When a candidate enrolls in the CFA Program and registers for the CFA exams there are many questions to consider, including:

- What is the commitment?
- How and when do I register?
- What topics are tested?
- How will I be tested?
- What is the most effective method of preparation?

Kaplan Schweser, the world's trusted leader in CFA review, has prepared this document to provide you with a summary of answers to these and other questions about the CFA Program, beginning with a brief overview.

Learn more about the history of the CFA Program.

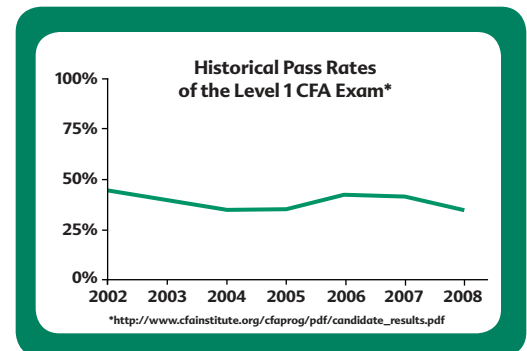

The CFA Program, administered by CFA Institute, sets the global standard for investment industry knowledge and ethical behavior. CFA Institute determines the program curriculum, administers the exam, and awards the CFA charter.

Known as the “gold standard” amongst financial industry professionals, the CFA charter is recognized as a significant benchmark within the financial community.

The CFA Program consists of a series of three examinations (Levels 1, 2, and 3) that must be taken in succession and are offered only once annually in June. The Level 1 exam is also offered in December.

A minimum of 250 hours of preparation per CFA exam level is recommended, although some candidates will need more time (or less) depending on their individual backgrounds and experience. There is no limit to the number of times you can take each exam, and you can take as much time as you need to complete the program.

The CFA curriculum is dynamic and changes annually to meet the nature and complexity of the global investment profession.

The 2008 Level 1 CFA® Exam pass rate, at 35%, was near an all-time historic low.
