Financial Analyst (CFA)

Qualification and Experience – CFA - will be a person with roughly 2 – 3 years of experience in the M&A or private equity team of a reputable investment bank.

Salary Structure

The salaries shall be in line with the norms of the UAE Market for candidates with the described background. In addition to the salary, a generous performance based incentive program is applicable to the successful candidate.

Characteristics & Expectations

- i. Analysis of potential private equity investments, merger and acquisition targets.
- ii. Preparation of potential projects/opportunities to upper management including feasibilities, financial proposals, business plans, etc. for projects in diversified industries.
- iii. Shall be able to engender, analyze, organize, present and develop private equity projects.
- iv. Shall financially and legally structure all such projects/transactions to mitigate or eliminate legal and financial liability while retaining the return requirements of the company.
- v. Shall develop/lead manage underwriting projects for select clients, related parties and partners.
- vi. Shall have a firm understanding of the economic and financial environment, both historical and current.
- vii. Shall be entrepreneurial and self sufficient in character.
- viii. Particular attention will be give to the types of projects and industries worked in, such as real-estate & real-estate development, financial services particularly those in investment banking such as structuring transactions (legally & financially), underwriting, private placement, private equity investments, etc.
- ix. While the possession by the candidate of technical financial skills are important and indeed a minimum requirement; the successful candidate will also be able to utilize those technical tools and experience to develop novel solutions and structures that reduce the risk of investment for ourselves and our partners.

General considerations,

- a. Particular interest will be given to bilingual candidates.

- b. Particular interest will be given to candidates that have developed projects from concept to completion.
- c. Particular interest will be given to candidates that have worked in reputable organizations (not necessarily well known internationally (such as specialized boutique firms), but well respected within the financial community).
- d. Particular interest will be given to candidates that are willing to travel internationally for meetings or otherwise on a short-time or project basis.
- e. All candidates will undergo an evaluation period of 3 – 6 months.
